"My wife and I are both in our mid 80's. Rick has been installing and servicing our antennas, big TVs, DVD and VCR units for several years. Thanks to his expertise we can use all of this equipment and also watch Foxtel in our lounges and in the kitchen and bedroom. His prompt and friendly help has been readily available, nothing is ever too much trouble and his work has been excellent. His charges have been extremely reasonable. We are delighted to have this opportunity of recommending this fine young man to everyone."

I know it has been two or three weeks since Kevin was here, but I meant to let you know how happy I was with his hard work (on such hot days too) and thank you for delivering as you promised (price and turning up on time, despite the challenges this house presented to him). All is working well.
